STIPULATION FOR A
PROBATIONARY LICENSE

1) Steven C. Dilsaver, applicant for a physician and surgeon's license, and Lucinda James, Chief of the Licensing Program, Medical Board of California, hereby stipulate as follows:

2) This 49 year-old applicant is a June 1980 graduate of the University of California San Diego School of Medicine in La Jolla, California. Between July 1, 1980 and June 30, 1985, he completed four years of postgraduate training in psychiatry at the University of Michigan Medical Center in Ann Arbor, Michigan. Between 1985 and 1995, he worked as an academician in several universities, specializing in the research and treatment of mood disorders. Since 1995, he has practiced clinical psychiatry in private hospitals or governmental facilities.

3) The applicant has been diagnosed with bipolar disorder, obsessive compulsive disorder and attention deficit/hyperactivity disorder. In 1995 and 1999, he experienced documented relapses of his bipolar disorder, characterized by manic episodes. During these episodes, his insight and his ability to practice medicine were impaired, and his supervisors recommended his immediate hospitalization to safeguard his and his patients' safety. He voluntarily obtained inpatient treatment. Since that time, his condition has been brought under better control through medication and therapy. His condition is currently in remission, and he is receiving weekly followup care through a local psychiatrist.

4) In May and June of 2002, the applicant voluntarily underwent a psychiatric evaluation by a board-certified psychiatrist selected by the Board. After interviewing the applicant, reviewing his medical history and administering standard psychological tests, the psychiatrist determined that the applicant should not be granted an unrestricted medical license at this time. While his condition is currently in remission, the risk of relapse with mood disorders is high. A relapse will require immediate treatment, and possibly hospitalization, and would compromise the applicant's ability to practice medicine safely. Therefore, the psychiatric consultant recommended that the applicant undergo a period of probation with followup treatment and monitoring.

5) The applicant has been diagnosed as having a chronic condition that has, in the past, impaired or limited his ability to practice medicine with reasonable skill and safety. Practicing medicine while impaired would constitute unprofessional conduct under Business and Professions Code Sections 480 (a)(3) and 2234, and would be grounds for denial. However, the results of the psychiatric evaluation indicated that it would not be against the public interest to issue the applicant a probationary license under terms and conditions designed to ensure public protection.

6) The applicant acknowledges he has a right to request a Statement of Issues and hearing upon denial of license for cause. Applicant waives notice of hearing and judicial review in favor of this Stipulation for a Probationary License, which is subject to approval by the Division. If not approved, this Stipulation is null and void and may not be used for any purpose.

The staff recommends to the Division that a Probationary License be issued as follows:

ORDER

IT IS ORDERED THAT STEVEN C. DILSAVER, applicant, be issued a physician and surgeon's license on a probationary basis, subject to the following terms and conditions:

- 1) Applicant is placed on probation for ten years. Probation shall begin on the date applicant is issued a probationary license.
- 2) Within 60 days of the effective date of this decision, applicant shall submit to the Division or its designee for its prior approval the name and qualifications of a psychotherapist of applicant's choice. Upon approval, applicant shall undergo and continue treatment until the Division or its designee deems that no further psychotherapy is necessary. Applicant shall have the treating psychotherapist submit quarterly status reports to the Division or its designee. The Division or its designee may require applicant to undergo psychiatric evaluations by a Division-appointed psychiatrist and shall require such an evaluation prior to termination of probation. If, prior to the termination of probation, applicant is found not to be mentally fit to resume the practice of medicine without restrictions, the Division shall retain continuing jurisdiction over the applicant's license and the period of probation shall be extended until the Division determines that the applicant is mentally fit to resume the practice of medicine without restrictions. The applicant shall pay the cost of therapy and evaluations.
- 3) Applicant shall take the medications prescribed by his treating psychotherapist and shall not self-prescribe or modify his medication regimen without the prior approval of his treating psychotherapist.

- 4) Within 30 days of the effective date of this decision, applicant shall submit to the Division or its designee for its prior approval a plan of practice in which applicant's practice shall be monitored by another physician in respondent's field of practice, who shall provide periodic reports to the Division or its designee. If the monitor resigns or is no longer available, applicant shall, within 15 days, move to have a new monitor appointed, through nomination by applicant and approval by the Division or its designee. A practice monitor shall have no prior or current business or personal relationship with applicant, or other relationship that might compromise the ability of the practice monitor to render fair and unbiased reports to the division and shall be in applicant's field of practice. Applicant shall pay all monitoring costs.
- 5) Applicant is prohibited from engaging in solo practice.
- 6) Applicant shall obey all federal, state and local laws, and all rules governing the practice of medicine in California.
- 7) Applicant shall submit quarterly declarations under penalty of perjury on forms provided by the Division, stating whether there has been compliance with all conditions of probation.
- 8) Applicant shall comply with the Division of Medical Quality's probation surveillance program. Applicant shall, at all times, keep the Division informed of his business and residence addresses. Changes of such addresses shall be immediately communicated in writing to the Division. Under no circumstances shall a post office box serve as an address of record, except as allowed by Business and Professions Code Section 2021(b). Applicant shall, at all times, maintain a current and renewed physician and surgeon license. Applicant shall also immediately inform the Division, in writing, of any travel to any areas outside the jurisdiction of California which lasts, or is contemplated to last, more than thirty (30) days.
- 9) Applicant shall appear in person for interviews with the Division, its designee or its designated physician(s) upon request at various intervals and with reasonable notice.
- 10) In the event applicant should leave California to reside or to practice outside the state, or for any reason should applicant stop practicing medicine in California, applicant shall notify the Division or its designee in writing within 10 days of the dates of departure and return or the dates of non-practice within California. Non-practice is defined as any period of time exceeding thirty days in which applicant is not engaging in any activities defined in Sections 2051 and 2052 of the Business and Professions Code. All time spent in an intensive training program approved by the Division or its designee shall be considered as time spent in the practice of medicine. A Board ordered suspension of practice shall not be considered as a period of non-practice.

Periods of temporary or permanent residency or practice outside California or of non-practice within California, as defined in this condition, will not apply to the reduction of the probationary order.

11) During probation, applicant is prohibited from supervising physician assistants.

12) The Division of Medical Quality reserves the right to evaluate the applicant's probationary history at or near the end of the probationary period and to exercise its discretion whether to grant a clear license without conditions, or to take any other action deemed appropriate and reasonable under the circumstances.

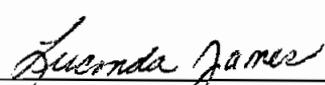

13) If the applicant violates probation in any respect, the Division of Medical Quality, after giving applicant notice and the opportunity to be heard, may revoke probation and terminate the probationary license. If an accusation or petition to revoke probation is filed against the applicant during probation, the Division of Medical Quality shall have continuing jurisdiction until the matter is final, and the period of probation shall be extended until the matter is final.

Applicant agrees to comply with the terms and conditions of the above Order.

NOW COMES the Michigan Department of Community Health, hereafter Complainant, by Melanie B. Brim, Director, Bureau of Health Professions, and files this complaint against Steven Charles Dilsaver, M.D., hereafter Respondent, alleging upon information and belief as follows:

1. The Michigan Board of Medicine, hereafter Board, is an administrative agency established by the Public Health Code, 1978 PA 368, as amended; MCL 333.1101 et seq. 3. On July 11, 2003, the Medical Board of California, hereafter California Board, disciplined Respondent pursuant to a Decision and Order. The terms of probation required, in part, that Respondent remain under a psychotherapist's care, take his psychiatric medications as prescribed, refrain from engaging in solo practice, and have his practice monitored by a California Board approved physician. The within complaint is based upon files and records maintained by Complainant and the attached Affidavit of Pamela Dixon.

WHEREFORE, Complainant requests that the within complaint be served upon Respondent and that Respondent be offered an opportunity to show compliance with all lawful requirements for retention of the license. If compliance is not shown, Complainant further requests that formal proceedings be commenced pursuant to the Public Health Code, rules promulgated thereunder, and the Administrative Procedures Act of 1969, 1969 PA 306, as amended; MCL 24.201 et seq.

STIPULATION FOR A
 PROBATIONARY LICENSE

STATE OF MICHIGAN - INGHAM COUNTY
 We certify that the foregoing is a true

 the Department of Community Health
 Bureau of Health Professions.

- 1) Steven C. Dilsaver, applicant for a physician and surgeon's license, and Lucinda James, Chief of the Licensing Program, Medical Board of California, hereby stipulate as follows:
- 2) This 49 year-old applicant is a June 1980 graduate of the University of California San Diego School of Medicine in La Jolla, California. Between July 1, 1980 and June 30, 1985, he completed four years of postgraduate training in psychiatry at the University of Michigan Medical Center in Ann Arbor, Michigan. Between 1985 and 1995, he worked as an academician in several universities, specializing in the research and treatment of mood disorders. Since 1995, he has practiced clinical psychiatry in private hospitals or governmental facilities.
- 3) The applicant has been diagnosed with bipolar disorder, obsessive compulsive disorder and attention deficit/hyperactivity disorder. In 1995 and 1999, he experienced documented relapses of his bipolar disorder, characterized by manic episodes. During these episodes, his insight and his ability to practice medicine were impaired, and his supervisors recommended his immediate hospitalization to safeguard his and his patients' safety. He voluntarily obtained inpatient treatment. Since that time, his condition has been brought under better control through medication and therapy. His condition is currently in remission, and he is receiving weekly followup care through a local psychiatrist.
- 4) In May and June of 2002, the applicant voluntarily underwent a psychiatric evaluation by a board-certified psychiatrist selected by the Board. After interviewing the applicant, reviewing his medical history and administering standard psychological tests, the psychiatrist determined that the applicant should not be granted an unrestricted medical license at this time. While his condition is currently in remission, the risk of relapse with mood disorders is high. A relapse will require immediate treatment, and possibly hospitalization, and would compromise the applicant's ability to practice medicine safely. Therefore, the psychiatric consultant recommended that the applicant undergo a period of probation with followup treatment and monitoring.

5) The applicant has been diagnosed as having a chronic condition that has, in the past, impaired or limited his ability to practice medicine with reasonable skill and safety. Practicing medicine while impaired would constitute unprofessional conduct under Business and Professions Code Sections 480 (a)(3) and 2234, and would be grounds for denial. However, the results of the psychiatric evaluation indicated that it would not be against the public interest to issue the applicant a probationary license under terms and conditions designed to ensure public protection.

6) The applicant acknowledges he has a right to request a Statement of Issues and hearing upon denial of license for cause. Applicant waives notice of hearing and judicial review in favor of this Stipulation for a Probationary License, which is subject to approval by the Division. If not approved, this Stipulation is null and void and may not be used for any purpose.

The staff recommends to the Division that a Probationary License be issued as follows:

ORDER

IT IS ORDERED THAT STEVEN C. DILSAVER, applicant, be issued a physician and surgeon's license on a probationary basis, subject to the following terms and conditions:

1) Applicant is placed on probation for ten years. Probation shall begin on the date applicant is issued a probationary license.

2) Within 60 days of the effective date of this decision, applicant shall submit to the Division or its designee for its prior approval the name and qualifications of a psychotherapist of applicant's choice. Upon approval, applicant shall undergo and continue treatment until the Division or its designee deems that no further psychotherapy is necessary. Applicant shall have the treating psychotherapist submit quarterly status reports to the Division or its designee. The Division or its designee may require applicant to undergo psychiatric evaluations by a Division-appointed psychiatrist and shall require such an evaluation prior to termination of probation. If, prior to the termination of probation, applicant is found not to be mentally fit to resume the practice of medicine without restrictions, the Division shall retain continuing jurisdiction over the applicant's license and the period of probation shall be extended until the Division determines that the applicant is mentally fit to resume the practice of medicine without restrictions. The applicant shall pay the cost of therapy and evaluations.

3) Applicant shall take the medications prescribed by his treating psychotherapist and shall not self-prescribe or modify his medication regimen without the prior approval of his treating psychotherapist.

4) Within 30 days of the effective date of this decision, applicant shall submit to the Division or its designee for its prior approval a plan of practice in which applicant's practice shall be monitored by another physician in respondent's field of practice, who shall provide periodic reports to the Division or its designee. If the monitor resigns or is no longer available, applicant shall, within 15 days, move to have a new monitor appointed, through nomination by applicant and approval by the Division or its designee. A practice monitor shall have no prior or current business or personal relationship with applicant, or other relationship that might compromise the ability of the practice monitor to render fair and unbiased reports to the division and shall be in applicant's field of practice. Applicant shall pay all monitoring costs.

5) Applicant is prohibited from engaging in solo practice.

6) Applicant shall obey all federal, state and local laws, and all rules governing the practice of medicine in California.

7) Applicant shall submit quarterly declarations under penalty of perjury on forms provided by the Division, stating whether there has been compliance with all conditions of probation.

8) Applicant shall comply with the Division of Medical Quality's probation surveillance program. Applicant shall, at all times, keep the Division informed of his business and residence addresses. Changes of such addresses shall be immediately communicated in writing to the Division. Under no circumstances shall a post office box serve as an address of record, except as allowed by Business and Professions Code Section 2021(b). Applicant shall, at all times, maintain a current and renewed physician and surgeon license. Applicant shall also immediately inform the Division, in writing, of any travel to any areas outside the jurisdiction of California which lasts, or is contemplated to last, more than thirty (30) days.

9) Applicant shall appear in person for interviews with the Division, its designee or its designated physician(s) upon request at various intervals and with reasonable notice.

10) In the event applicant should leave California to reside or to practice outside the state, or for any reason should applicant stop practicing medicine in California; applicant shall notify the Division or its designee in writing within 10 days of the dates of departure and return or the dates of non-practice within California. Non-practice is defined as any period of time exceeding thirty days in which applicant is not engaging in any activities defined in Sections 2051 and 2052 of the Business and Professions Code. All time spent in an intensive training program approved by the Division or its designee shall be considered as time spent in the practice of medicine. A Board ordered suspension of practice shall not be considered as a period of non-practice.

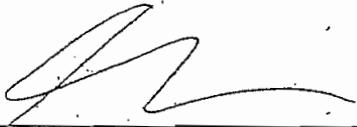

Periods of temporary or permanent residency or practice outside California or of non-practice within California, as defined in this condition, will not apply to the reduction of the probationary order.

11) During probation, applicant is prohibited from supervising physician assistants.

12) The Division of Medical Quality reserves the right to evaluate the applicant's probationary history at or near the end of the probationary period and to exercise its discretion whether to grant a clear license without conditions, or to take any other action deemed appropriate and reasonable under the circumstances.

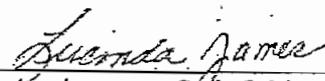

13) If the applicant violates probation in any respect, the Division of Medical Quality, after giving applicant notice and the opportunity to be heard, may revoke probation and terminate the probationary license. If an accusation or petition to revoke probation is filed against the applicant during probation, the Division of Medical Quality shall have continuing jurisdiction until the matter is final, and the period of probation shall be extended until the matter is final.

Applicant agrees to comply with the terms and conditions of the above Order.
