Dear Doctor Hutchinson:

In accordance with Chapter 119.. Ohio Revised Code, you are hereby notified that the State Medical Board of Ohio proposes to deny your application for certificate to practice medicine or surgery for one or more of the following reasons:

1. On your applications for licensure filed with the State Medical Board of Ohio on or about October 12, 1983 and October 1, 1984, and on your application for a temporary certificate filed on or about July 6, 1984, in response to the question "Have you ever been convicted of a violation of a federal law, state law, or municipal ordinance other than a minor traffic violation," you responded "No." In fact, you were convicted of driving while intoxicated on or about July 20, 1983.
2. On your applications for licensure filed with the State Medical Board of Ohio on or about October 1, 1984 and July 17, 1985, in response to Question 6, Section 5, "Have you ever withdrawn from, or been suspended, dismissed or expelled from a medical school or postgraduate training program," you responded "no." In fact, you had withdrawn from the psychiatry residency program at the University of Cincinnati Medical Center in 1984.
3. During your interview on January 21, 1985 with Ralph Henn, M.D., pursuant to your application for licensure, you stated that you were accepted into the University of Cincinnati Medical School in 1978, but that you requested and received a deferred admission "due to financial difficulties." In fact, your 1978 application for admission was denied. You reapplied to the University of Cincinnati in 1979 and were then accepted.

4. During your personal appearance before the Board on March 13, 1986, pursuant to your application for licensure, you stated that you withdrew from your residency program in Neurology at the University of Cincinnati due to financial difficulties. In fact, you were accepted into that program in a probationary status, which status would continue for three months beginning July 1, 1985. When you withdrew from the program on August 21, 1985, you had been told on a number of occasions that your performance was unacceptable, and that if further improvement was not demonstrated, you would not be allowed to remain beyond the probationary period.
5. You stated, as part of your evaluation at Ridgeview Institute pursuant to your licensure application, that you took the leave of absence from medical school in 1981-1982 for financial reasons. In fact, you took the leave of absence from medical school upon the advice of and with the support of Dr. McNeely, Director, Student Health Services, University of Cincinnati because of your severe mental and emotional difficulties.

Such acts, conduct and omissions as alleged in the above Paragraphs 1 through 5, individually and/or collectively, constitute "fraud, misrepresentation or deception in applying for or securing any license or certificate issued by the Board," as that clause is used in Section 4731.22(A) of the Revised Code.

Further, such acts, conduct and omissions as alleged in the above Paragraphs 1 through 5, individually and/or collectively, demonstrate that you lack the good moral character required under Section 4731.08 of the Revised Code for a certificate to be issued.

6. On your application for licensure in California filed on or about September 23, 1985, in response to Question 12 "Have you ever been denied a license to practice medicine in any state or country," you responded "no." In fact, your application for licensure filed with the State Medical Board of Ohio on or about October 12, 1983 was denied.

Such acts, conduct and omissions as alleged in the above Paragraph 6 demonstrate that you lack good moral character required under Section 4731.08 of the Revised Code for a certificate to be issued.

7. Based upon the allegations in Paragraphs 1 through 6, above, and the conclusions of the Clinical Management Team of the Impaired Health Professionals Program, Smyrna, Georgia, following their examination of you, you are unable "to practice according to acceptable and prevailing standards of care by reason of illness, excessive use of alcohol, excessive use of controlled substances, drugs, or chemicals, or as a result of a mental or physical condition," as that clause is used in Section 4731.22(B)(15) of the Revised Code.

You are hereby advised that you have the right to a hearing in this matter. If you wish to request such a hearing, that request must be made within thirty (30) days of the time of mailing of this notice. Final action may be taken on the proposed denial if a timely request for hearing is not made.

You are further advised that you are entitled to appear at such hearing in person, or by your attorney, or you may present your position, arguments, or contentions in writing, and that at the hearing you may present evidence and examine witnesses appearing for or against you.

Very truly yours,

A handwritten signature in cursive script, appearing to read "Henry G. Cramblett".
