Specific Disease or Condition:
Major depressive disorder

Information from experts who specialize in the disease or condition.
Evidence from other states, shows that medical marijuana can help the treatment of major depressive disorder

Relevant medical or scientific evidence pertaining to the disease or condition.
Those who are diagnosed as major depressed did not show any signs of worsening with the use of marijuana. There's little negative side effects as well.

Consideration of whether conventional medical therapies are insufficient to treat or alleviate the disease or condition.
I have tried 10 antidepressants. None have worked well.

Evidence supporting the use of medical marijuana to treat or alleviate the disease or condition, including journal articles, peer-reviewed studies, and other types of medical or scientific documentation.
My own science analysis is that I feel immensely better once ingesting marijuana. Only relief I have found.

Letters of support provided by physicians with knowledge of the disease or condition. This may include a letter provided by the physician treating the petitioner, if applicable.
My counselor (who shall not be named) recommended that I give it a try and it helped.
